

Geauga Park District Nature Craft #1

Make a Nature Name!

You will need:

- *A pencil*
- *Glue*
- *A piece of heavy paper, poster board or recycled cardboard*
- *Natural materials from your yard*

1. Cut your heavy paper into your desired finished size. The samples are approximately 4.25" x 11"
2. Write your name or word on the paper. Pencil is recommended, as the glue could make a magic marker get runny.

3. Trace the first letter of your name with the glue. Don't trace your whole name at once, as the glue will dry too fast.

4. Pick out nature items and glue them on the letter you just traced. Take flowers or pine cones apart for smaller-sized pieces, or trim sticks or leaves to fit.

5. Repeat with each letter of your name.
6. Let your finished nature name fully dry before hanging it up.
7. Take pictures of your finished project and send them to friends and family!
8. Share your *Nature Name* on Geauga Park District's Social Media!
